

**Parcels 7 and 8 Tile Map**  
**(1 of 2)**

Francis Koenn  
Crane Tnsp.  
Sec. 13  
FK2008  
9/1987; 8/2008

SUBJECT: Koenn Francis  
DESCRIPTION: Crane Tnsp., Sec. 13  
DATE: FK2008 9/1987; 8/2008

NOTES: This is a map to show the tubing repaired in the field originally tiled in 1987. The outlet cut 21 poly laterals & 21 existing clay laterals. The new outlet is 20' south of the new US 24 right of way & is tapped into the outlet from the structure located on the line between Francis & Simpsons. This map is an edit of the original map, hand drawn in 1987. This purpose of this map is to show the outlet & laterals that are affected on the south side of the highway. I don't have any data for the laterals that are affected on the north side of the highway. I made an estimate of what it may be on the north side to put the south side in perspective.
